AGL's DIRTY SECRETS

CALL ON AUSTRALIA'S *BIGGEST* CLIMATE POLLUTER TO DITCH DIRTY ENERGY!

To: CEO Andy Vesey and the board of AGL:
At a time when Australia needs to be rapidly transitioning to clean energy, I'm deeply concerned that over 80% of AGL's energy comes from polluting coal fired power stations. As Australia's largest climate polluter, AGL need to do their fair share in driving a speedy, planned transition to clean energy sources.

I'm calling on AGL to be a climate leader and commit to go fossil free by the end of 2025 in order to avoid the worst effects of global warming.

FULL NAME	EMAIL	PHONE	POSTCODE	AGL customer & pledge to switch to clean energy company	AGL shareholder	I can volunteer
