Uncommon Grounds Café  
Community of Celebration  
Veterans For Peace  
Thomas Merton Center  
Progressive Democrats  
of America*

## **CALL FOR ENDORSEMENT**

Dear Friend;

The most dangerous wall that Donald Trump might actually build is a big ugly fortress blocking the road to peace. He says he is ready to restart the nuclear arms race. His views on the Middle East defy reason and history. And he just “loves war”.

While we know that people across the country will begin to stand up against this warmongering, we also know that western Pennsylvania needs to step up and into this battle. We need to be better organized and we must amplify our unified voices.

To this end, we have invited the leaders of two national organizations to speak.

Kevin Martin leads Peace Action, the largest grassroots peace network in the country. His group propels local voices for peace into the decision-making process in our great nation's capital.

Michael McPherson leads Veterans for Peace. They educate the public on the costs and consequences of war. Few among us can testify so directly to the need for peace as our own veterans.

Kevin and Michael will be in western Pennsylvania April 21-22, giving talks Friday night in Pittsburgh and Saturday afternoon in Aliquippa.

We hope that their discussions with us will help western Pennsylvania stand united to keep the path to peace open.

We invite you to endorse the programs as well as attending and helping to spread the word.

With highest hopes,

Beaver County Peace Links

The Thomas Merton Center Anti-War Committee

Veterans for Peace, Western Pennsylvania Chapter #47
